"Big things"

Edition

LOS COLORES DEL CARACOL

LOS RESIDENTES DE LA PENÍNSULA CARACOL, A.C.

Hearts, movies and gates

Big things happened at the General assembly meeting in February. Matching funds and donations by residents will allow the heavily traveled entrance/exit loop pavers to be completed. Sufficient funds were raised to allow the regrading of the entrance gate. No more stopping on the uphill slope. In addition, we will be replacing the old caseta and entrance gates. The current plan is for work to start on the loop pavers very soon. The gate upgrade will begin during the summer, when traffic is reduced. More information on the new gates in the April newsletter.

"Heart attack" hill is finished! Water main and side feed lines have been replaced and the new pavers are in place. It has been suggested that we rename it "Cardiac" hill, since walking up it should improve your cardiovascular health! Take it slow. We don't want residents piling up at the top with heart attacks. Drive carefully and enjoy the smooth ride. If you missed the movie that was shown at the General Assembly meeting in February, here is a link: <http://vimeo.com/118670153>
