LOS RESIDENTES DE LA PENÍNSULA CARACOL, A.C.

Gates and summer information

In a previous newsletter we promised more information about the new gate installation. Before we can proceed with the drawings and plans for the new gate, we need to have a current survey done of the roads near the gate so that we can properly plan for the removal of the old caseta and placement of the new guard house and gates. We had hoped to have the survey report completed two months ago, but it is still not in our hands. A new engineering firm has been contacted and we are now making progress.

As summer approaches, many of the people on the hill are beginning to drift away. I thought I would publish contact information on how to obtain help with problems on the Caracol during the summer.

The contact information below is also available on the Caracol web site - www.caracolassn.com

Important updates will be available on the home page over the summer.

Roads - Roger Stevens 226-2137 (San Carlos home)

Gate - Dave Jaksha 226-0027 (San Carlos home) 520-400-8896 (Tucson)

General - Eileen Pasker 226-1197 (San Carlos home)

The Caracol association email address's are always monitored.

Or send email to caracolassociation@gmail.com

Many residents like to keep track of the weather on the Caracol. There are four weather stations on the hill that anyone can monitor. Click on the Caracol weather link on the caracolassn.com home page, or follow these links.
