# LOS COLORES DEL CARACOL

LOS RESIDENTES DE LA PENÍNSULA CARACOL, A.C.

## Looking back is important for going forward....

While examining some of the content on the [caracolassn.com](http://caracolassn.com) web site, I realized that I have been remiss in keeping some content up to date. As a matter of fact I was about seven years remiss in updating the Caracol history. You can read the history of the Caracol on the History bookmark on the web page. Here is a link: [Historical timeline of Caracol](#) There are other events that are significant that should be noted in the timeline. I will try to get to them soon. Of course that is what I said 7 years ago. If you have any suggestions that should be included in our history please drop me a note at the “Contact Me” link at the bottom of any [caracolassn.com](http://caracolassn.com) web page.

Homes on the Caracol were first being built around 1972. Linked to the Image gallery tab at the [caracolassn.com](http://caracolassn.com) web site, there are many images of the Caracol before any construction of roads were in place. Here is a link: [Early years of Caracol](#)

As many of you may have heard Covid-19 and its ugly little offspring have made a comeback in Mexico as well as most locations around the world. The Mexican government has issued new restriction on restaurants and beach activity. As a result the Caracol beach is closed until further notice.

I didn't get to post this last month, but there is still work on going on the hill. Many volunteers in conjunction with the Association have been at work. For example the entrance has received some tender loving care. General cleanup, weed removal and trimming of our many plantings. If you like the maintenance on the hill please remember to help by paying your Association maintenance dues by checking out the dues tab on the web site. [Dues and contributions](#)

Watch [caracolassn.com](http://caracolassn.com) web site for additional information.
