LOS COLORES DEL CARACOL

LOS RESIDENTES DE LA PENÍNSULA CARACOL, A.C.

Cowabunga...What have we done?

It is encouraging to watch the discussions on the Caracol WhatsApp group. Recently there have been some problems with a plugged sewer system and a water main broken by CFE. The WhatsApp conversations have gone a long way towards keeping everyone informed. One thing I have noticed are the many new (at least to me) residents on WhatsApp. Many of you may not be aware of the achievements that the many resident volunteers and Caracol HOA dues have accomplished in repairing and maintaining the Caracol infrastructure. I considered constructing a timeline for the past several years, but then realized that the monthly newsletters go a long ways toward documenting our progress. I encourage you to go to the Caracol website and spend some time reading past newsletters under the documents tab. They give a overview and evolution of the many projects (looking back its really quite impressive) starting in 2014.

We have enlisted help for repairs of the roads, sprayed/trimmed the bougainvilleas at the front entry, replaced dead plants, repaired the irrigation, kept the Pila area weeded, and worked to keep construction waste under control. Many man-hours have been spent to enforce Caracol HOA Protective Rules. The hope is to keep a clean, safe and beautiful environment for all, while ensuring that everyone’s rights are looked after.

If you have not paid for 2021, please go the Caracol website ([Caracol dues page](#)) for PayPal access or payment can be given to Laura Lane at 528 Cabrillas.

Watch caracolassn.com web site for additional information.
