LOS COLORES DEL CARACOL

LOS RESIDENTES DE LA PENÍNSULA CARACOL, A.C.

Fire can warm your hearth or burn down your house....

There is a new **Fire** Station being established in San Carlos by the City of Guaymas. Currently its close to Dr. Canale's office. It consists of a pumper, a ladder truck, a quick response vehicle and a motorhome for housing the firefighters. They will be manning the station with 2 firefighter/EMTs 24 hours a day. This is a welcome addition to Rescate, especially for medical aid.

Comisario Enrique Gamez worked hard getting this effort off the ground. On February 14, we had a brush fire on Hippocampo. The new fire fighters came and extinguished the fire. For the residents that have been absent from the hill for months, please have someone check around your lots for excessive growth and hire someone to clean it up. These brush fire can get out of control quickly and cause lots of expensive damage.

The street sign project is underway! Tom Reed and Cesar Leyva have been working together to carve the letters and numbers needed for the signs and pour the molds. Cesar is pouring the molds in his shop. The project has been a little complicated and requires time. One is up at the entrance for viewing, but not completely painted. As Cesar progresses, more signs will be mounted throughout the Caracol and volunteers will come together to do the painting. Look forward to more on this project in the April newsletter!

Please check the Caracol home page for information concerning the **Caracol Association 2021 general Assembly** meeting.
